

12th WORLD PETUNIA DAYS

18-21 March 2012

Erfurt, Germany

Registration opens 28th October 2011 at:

[http://www.petuniaplatform.net/
index.php?page=activities](http://www.petuniaplatform.net/index.php?page=activities)

Molecular mechanisms controlling development:

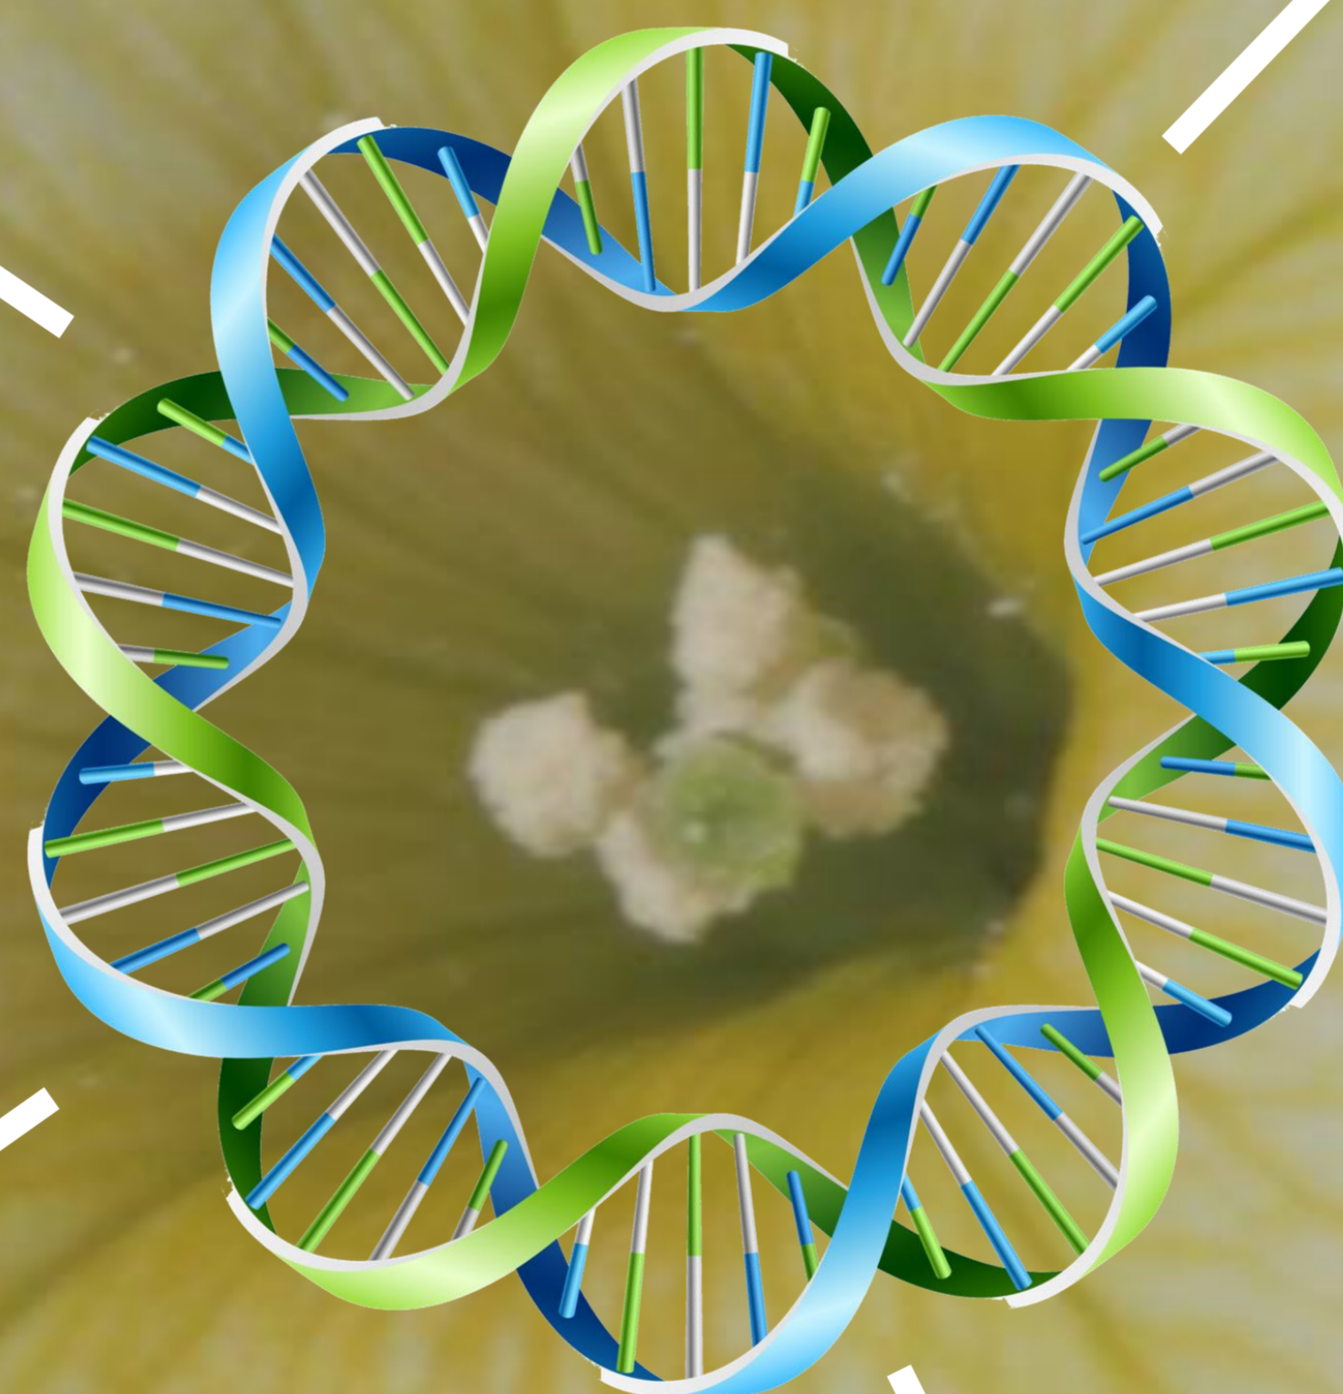

Flower

Organ development
Inflorescence architecture
Scent production
Pigmentation
Self-incompatibility

Shoot

Meristem organisation
Stress response

Root

Adventitious root
formation
Mycorrhiza

Petunia functional genomics

Transcriptome analysis
Petunia genome sequencing
Insertion flanking sequence
databases
